A+ Grade by NAAC: CMPN, EXTC, INFT NBA Accredited: ISO 9001:2015 Certified

Department of Information Technology

A.Y. 2025-2026

Class: BE-IT A/B, Semester: VIII

Subject: Cloud Computing Lab

Student Name: Riya Sandip Indap

Student Roll No: 21

Experiment – 10: Orchestration using Kubernetes

Aim: To study and implement container orchestration using Kubernetes on AWS/ Azure/ Google cloud platform (Free Tier Cloud Platforms).

Objective: After performing the experiment, the students will be able to learn –

- fundamental concepts of containerization technologies like kubernetes
- how to provision and manage container on AWS cloud with EKS Elastic Kubernetes Services.
- how to use eksctl, docker and kubectl command line
- how to create and use EKS Cluster

Lab objective mapped: ITDO8024.6 : To design and develop containerized solutions.

Prerequisite: An AWS account

Requirements:

- Must have Hyper V capabilities on the system
- Minikube installed
- Idea of system administration and linux commands
- Understands the basic concepts of containerization technology
- Cloud Login, Desktop, Browser, Internet

Pre-Experiment Theory: (To be written and drawn in hand)

1. Amazon EKS
2. Architecture of Kubernetes

Procedure:

Follow given aws documentation link to complete Expt 10

<https://docs.aws.amazon.com/eks/latest/userguide/getting-started-console.html>

Post-Experiments Exercise:

Complete Certification Course:

- I. <https://www.udemy.com/course/kubernetes-getting-started/>
(Attach some proof of completion)

Extended Theory: (to be written in hand)

Kubernetes with AWS Elastic Kubernetes Services (EKS) (Udemy Video):

- I. <https://www.udemy.com/course/master-kubernetes-with-aws-elastic-kubernetes-services-eks/>

Watch Preview videos

1. What is Kubernetes and EKS
2. Setting up environment for Kubernetes

Results/Calculations/Observations:

Fill the following observation tables-(to be written in hand)

Sr. No	Item	Answer
1.	For 2 Amazon EKS cluster that you create in Asia Pacific (Mumbai) how much does that charge	
2.	kubecttl- Which tool is this? its use	

Conclusion:

1. Write what was performed in the experiment
2. Mention a few applications of what was studied.
3. Write the significance of the studied topic
